A tornado is a violently rotating column of air that extends from the clouds to the ground and is often, although not always, visible as a funnel cloud.

### WHAT DOES A TORNADO DO?:

Tornadoes may strike quickly, with little to no warning, causing extensive damage to structures and disrupting transportation, power, water, gas, communications and other services in its direct path and neighboring areas.

## Preparing for Tornadoes

### BEFORE A TORNADO

- ✔ Identify safe rooms or protective locations at home, school or work before a tornado threat arises so that you have a plan for where to go for safety when a tornado warning is issued.
- ✔ Be alert to changing weather conditions and time in to NOAA weather radio, local media and social media for the latest information.
- ✔ Look for the following danger signs: dark, often greenish sky; large hail; large, dark, low-lying cloud formation or rotation; or a loud roar similar to a freight train.
- ✔ Have an emergency communication plan in place for your family.
- ✔ Build an emergency kit by downloading our checklist online at [www.vaemergency.gov/](http://www.vaemergency.gov/)

### DURING A TORNADO

### •AFTER A TORNADO

- Stay out of damaged buildings and stay clear of downed power lines
- Help injured or trapped people. Check on those who might need special assistance, such the elderly, children and people with disabilities.

## Emergency Preparedness Kit

### EMERGENCY SUPPLIES

It can take several days or weeks for government services and assistance to reach you and your family depending on the severity of the disaster and your geographic location. An emergency kit is vital to sustaining your family after a disaster.

Use this checklist to build your emergency supply kit over time by adding a few items each week or month. **Many emergency preparedness products are eligible for Virginia's tax-free weekend held annually in August. The 3-day sales tax holiday starts the first Friday in August at 12:01 a.m. and ends the following Sunday at 11:59 p.m.** Regularly replace items that go bad such as water, food, medication and batteries, and remember to keep in mind your family's unique needs as you build your kit.

#### FOOD + SUPPLIES

- At least a 3-day supply of water and non-perishable food
- Infant formula and diapers
- Pet food and supplies (see reverse)

#### MEDICAL NEEDS

- Medications for at least one week and copies of prescriptions
- Medical equipment, assistive technology and backup batteries
- First aid kit and antibiotic ointment
- Sunblock

#### TOOLS + SAFETY ITEMS

- Flashlight and batteries
- Multipurpose tool

#### PROTECTIVE GEAR + CLOTHING

- Extra warm clothing
- Sturdy shoes
- Blankets or sleeping bags

#### EMERGENCY FUNDS

- Emergency cash funds should be able to sustain your family for several days at a minimum. Government assistance and resources take time.
- Plan for funds to cover fuel, lodging and meals as well as pet boarding costs if you're asked to evacuate.
- Do not rely on credit cards or debit cards as critical networks such as internet or electrical infrastructure may be damaged. Be sure to withdraw plenty of cash before the storm.

#### HYGIENE + SANITATION

Maintaining good hygiene can stop the spread of bacteria and infectious disease.

- Antibacterial soap and disinfectant
- Paper towels, toilet paper and towelettes
- Bleach and rubbing alcohol
- Toothbrush and toothpaste

#### CRITICAL PAPERWORK

Prior to a storm or evacuation, collect and store your critical paperwork in a waterproof storage bag or container. Storing a password-protected backup of your records on a virtual cloud service is also recommended.

- Driver's license and passports
- Vehicle registration and proof of insurance
- Medical and vaccination records
- Prescription medicine labels
- Birth certificates and social security cards
- Marriage certificates
- Proof of residence (deed or lease)
- Business and personal tax records
- Wills
- Household inventory (photo or video)

#### COMFORT + PRICELESS ITEMS

- You may be away from your home for an extended period and your property may be damaged. Grab any items that are irreplaceable or may provide comfort to your family, especially children.
- Books, puzzles and favorite stuffed toys
- Photo albums
- Valuables and jewelry

### PET-FRIENDLY CHECKLIST

- ID tags on collars and micro-chip pets
- Description and current photos of pets
- Immunization and medical records
- 1.5 gallons of water and sufficient food and medicine for at least three days per pet
- Pet medication, copy of feeding and medication schedule for caregiver, shelter or boarding staff
- Serving bowls
- Collar, leash and carrier to transport pets safely
- Pet toys and bedding

# The Community Action Council (CAC)

## Emergency Preparedness Kit

### Make an Emergency Car Kit

In case you need to leave quickly during a hurricane, always keep an emergency kit in your car, too.

- Food that doesn't go bad (like canned food)
- Flares
- Jumper cables (sometimes called booster cables)
- Maps
- Tools, like a roadside emergency kit
- A first aid kit and instructions
- A fire extinguisher
- Sleeping bags
- Flashlight and extra batteries

Having a GPS — either in your car or on your smartphone — can help during an emergency too.
